HORIZON-HLTH-2024-STAYHLTH-01-05-two-stage: Personalised prevention of non-communicable diseases - addressing areas of unmet needs using multiple data sources

Specific conditions	
Procedure	The procedure is described in General Annex F. The following exceptions apply: This topic is part of the blind evaluation pilot under which first stage proposals will be evaluated blindly.
Legal and financial set-up of the Grant Agreements	The rules are described in General Annex G. The following exceptions apply: Eligible costs will take the form of a lump sum as defined in the Decision of 7 July 2021 authorising the use of lump sum contributions under the Horizon Europe Programme – the Framework Programme for Research and Innovation (2021-2027) – and in actions under the Research and Training Programme of the European Atomic Energy Community (2021-2025). [40].

Topics de 2 fases:

- **Blind evaluation** en la primera fase
- **Lump sum** en la segunda fase

Blind Evaluation

With this pilot we want to tackle some understandable concerns that the evaluation process could be **perceived as biased towards well-known organisations in countries with better performing Research and Innovation systems**

NEW admissibility criterion: Applicants submitting a proposal under the blind evaluation pilot must not disclose their **organisation names, acronyms, logos nor names of personnel** in Part B of their first-stage application.

Part A - Will not be transmited to evaluators (complete as usual)
Part B - If proposals include any identification of the applicant in Part B, the proposal will be declared **inadmissible and will be rejected**.

No identification data can be mentioned by applicants in the proposal's **Part B**, otherwise **inadmissible proposal**

Blind Evaluation

- ✓ It will be launched in the WP 2023-24
- ✓ All two-stage calls in 2023 and 2024 should take part in the pilot (except justified cases)
- ✓ It will only concern the **first stage application** of two-stage calls (only EXCELENCE AND IMPACT are evaluated)
- ✓ The pilot aims to identify whether the **implementation of blind evaluation** within our legal requirements and operational context creates any difficulties. If this is not the case, it might lead to a modified approach, with a greater use of blind evaluations, which could effectively mitigate the risk of real, potential or perceived reputational bias.
- ✓ We expect that there will be admissible proposals where the evaluator could guess the identity of the applicant regardless (e.g., small research community). We plan to track those cases and examine **to what extent true blind evaluations were possible.**

- No identification of partners– ADMISSIBLE -> Evaluation
- Indirect identification or Grey-zone cases --> CASE BY CASE study (admissible/inadmissible, intentionally assessed)
- Direct identification of partners – INADMISSIBLE (intentionally assessed) -> Rejected

Proposal evaluation

↓

Blind evaluation pilot

Proposal submission

Part A - complete as usual

Part B – avoid disclosing organizational names, acronyms, logor nor name of personnel. Proposals with blacked out names and information are not preferred but accepted.

Guidance for blind evaluations

Proposals submitted to a call taking part in the blind evaluation pilot must be anonymous: proposals may not contain any direct or indirect reference to the organisations or persons participating in the proposals. This means that participants **must not disclose** applicants' organisation names, acronyms, logos nor names of personnel in the Part B of the application (the narrative uploaded as a pdf document). In addition, names of proposers or their organisations should not be potentially identifiable indirectly, via, for instance, links to web pages or through references to their role and previous experience.
The proposal can include references to their own publications if there is no emphasis that the publication is authored by one or more of the proposers.
The proposal will be declared inadmissible if its anonymity is not respected in the part B of the application. Information on the identity of participants should be included **only** in proposal Part A (the structured online web forms).

How to insert references to publications

The proposal can include references to participants' own publications if there is no emphasis that the publication is authored by one or more of the proposers.

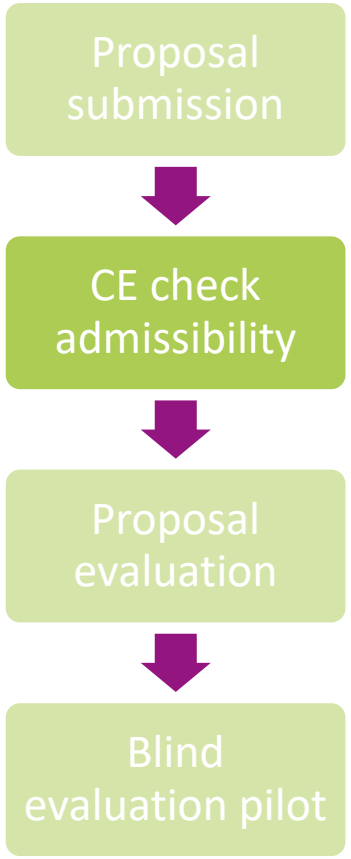
For example, the following statement will not be admissible:
'For climate impact, we will use greenhouse gas emission intensities, following a methodology developed previously by a project partner (Dalin et al.)'
but the following would be ok:
'For climate impact, we will use greenhouse gas emission intensities, following the methodology described in Dalin et al.'

Examples of statements resulting in inadmissible proposals

- 'Most of project's participants have been involved in the previous H2020 project, NANOCOM...'
- 'For climate impact, we will use greenhouse gas emission intensities, following a methodology developed previously by a project partner (Dalin et al.)'
- 'This task in WP3 will be based on outputs generated by some participants of the consortium', (with a link in the footnote to a YouTube video or webpage where participants can be identified)
- 'The consortium includes the largest research institute in France'
- 'Partner 3 is the leading company in Spain for wind turbine installation'
- 'Our current research expands our previous findings described in a recently published article (Wiliam et al, 2022)'
- 'The consortium consists of leaders in the high tech industry, including the biggest in terms of capital constructor of micro chips '
- 'The coordinator organisation was the one who first introduced the concept of m-RNA in vaccines'
- 'The consortium consists of 2 research centres (including an international one based in Geneva) and the oldest university in Belgium'

Example, not to complete

Blind Evaluation - proceso



NEW Admissibility criterion: Organisation names, acronyms, logos or names of personnel should not appear in Part B

Blind Evaluation - proceso

Proposal submission

CE check admissibility

Proposal evaluation

Blind evaluation pilot

Guidance for evaluators

- ✓ Should Experts notice any direct or indirect identification of the applicant, they should notify the staff officer.
- ✓ Experts should evaluate the proposal blindly, without taking extra steps to investigate based on the information included in the proposal, who is behind the project.
- ✓ Listing R&I activities, including on-going or finished projects, does not necessarily entail that the applicants are also participants of those mentioned activities.
- ✓ The proposal can include references to participants' own publications if there is no emphasis that the publication is authored by one or more of the proposers.
- ✓ Names of past projects can be mentioned, but it cannot be explicitly indicated that the proposal is a continuation of these projects or that the partners from the past projects overlap with project partners of the current proposal.
- ✓ The name of the city and its characteristics can be mentioned, provided that there is no explicit indication in the proposal, that any of the applicants are from this location (even if this would be in reality the case). Otherwise, if the participant wants to mention that one of project partners is coming from/ is closely connected with the given city, then the city name should not be mentioned and the city should be only vaguely described by its characteristics, which would not allow for its identification

Blind evaluation pilot

Evaluation form

Assessment of the pilot on Blind Evaluation

- Experts evaluators are asked in one **additional question** whether they were **able to guess the identity of the applicants (at least one)** behind the proposal, even if the proposal was **fully admissible** because it did not contain any direct or indirect reference to the identity of the participants.
- Should the answer to this question be 'yes', Experts are asked to provide their guess who the applicant(s) is.
- The purpose of this question is to measure whether true blind evaluations are possible given the operational and legal context of the Horizon Europe evaluation procedure. The feedback from the Experts will contribute to the assessment of the pilot on Blind Evaluations.
- Experts should not share and discuss their guesses regarding the identity of the applicant(s) among each other.

Assessment of the pilot on Blind Evaluation

Were you able to guess the identity of the applicants (at least one) behind the proposal, even if the proposal was fully admissible because it did not contain any direct or indirect reference to the identity of the participants?

- ○ No
- ○ Yes

If YES, could you provide us with your guess who the applicant(s) is?

November 2022

Open Call oc-2023-1

COST 104/21
V2.0

Lump Sum

- ✓ Financiación en base a **cantidades a tanto alzado por Work Packages (WP)** fijadas al inicio del proyecto en lugar de un reembolso en base a costes incurridos.
- ✓ El pago se hace en base la **REALIZACIÓN DE WP** y no en base a los resultados o costes incurridos. **Elimina todas las obligaciones de reporting financiero** (i.e. reducción de la carga administrativa), reporting únicamente técnico.
- ✓ Importante la definición de WP (en relación a los reporting periods) y responsabilidades de cada socio.

¿Cómo diseñar el plan de trabajo?

Definición: *"Work package means a major sub-division of the work plan of your project"*

- Una sola actividad NO es un work package
- Una sola tarea NO es un work package
- Un % de progreso/realización NO es un work package
- Un lapso de tiempo NO es un work package

As many as needed but no more than what is manageable

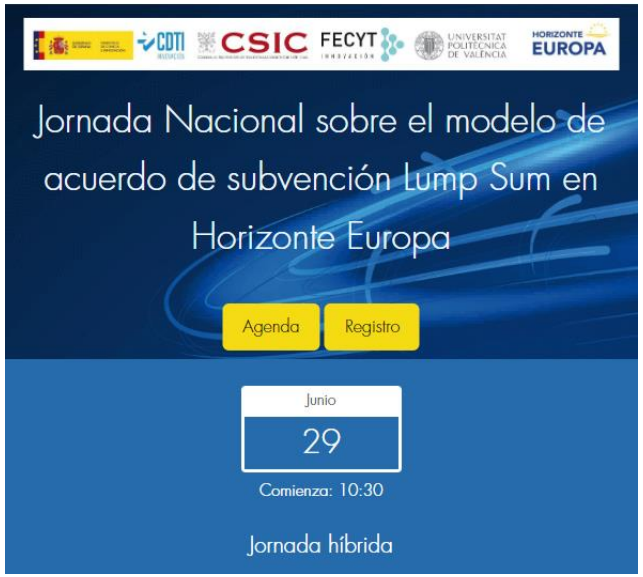
- **Regla general:** diseñar el plan de trabajo y definir los WP de manera similar a un proyecto basado en costes reales (actual costs)
- **WP Transversales** (i.e. Gestión, Comunicación+Difusión+Explotación, EECC): se pueden dividir entre los diferentes periodos de justificación, normalmente cada 18m.
- Dedicar tiempo y esfuerzo para asegurar que el plan de trabajo tiene sentido y la **distribución de WP permite mantener un cashflow adecuado**.

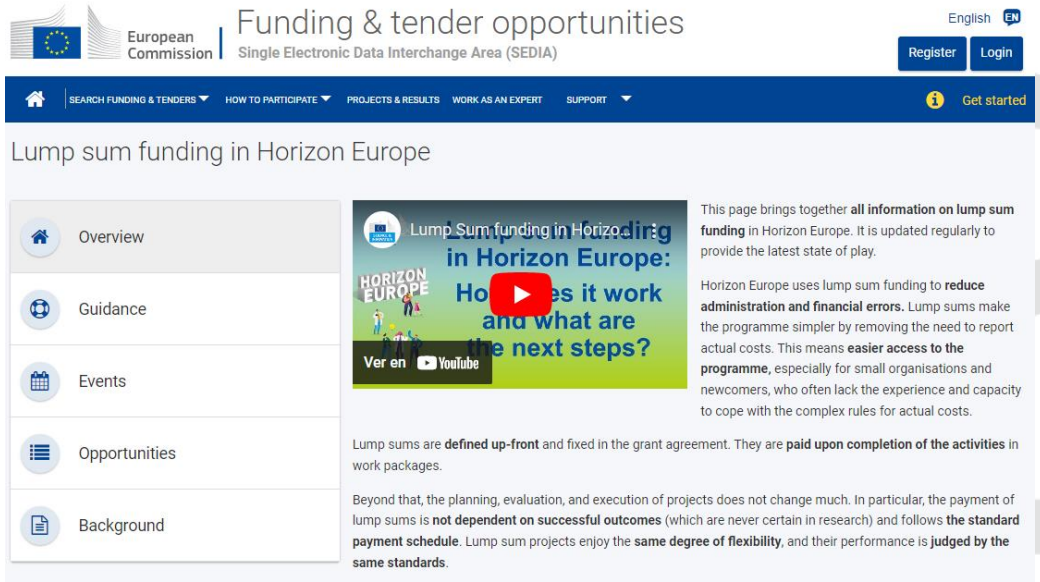
Lump Sum – más información

Jornada informativa Horizon Europe: aspectos en evolución (participación de las fundaciones hospitalarias, lump sums y blind evaluation)

14 de Junio de 2023

El próximo dia 14 de junio se celebra la jornada "Horizon Europe: aspectos en evolución (participación de las fundaciones hospitalarias, *lump sums* y *blind evaluation*)".





Cómo preparar una propuesta

GENERACIÓN DE IDEAS

- ✓ Contribuye a algun problema o necesidad a nivel europeo.
- ✓ Requiere colaboración europea.
- ✓ Tiene **impacto** a nivel social, económico, científico.
- ✓ Da respuesta a topics, destinos WP y contribuye a las prioridades de las CE y los ODS.
- ✓ Tipo de propuesta:
  - RIA – investigación
  - IA – innovación
  - CSA – colaboración

FORMACIÓN DEL CONSORCIO

- ✓ Mínimo de una entidad de un EEMM + dos entidades de EEMM o países asociados *(condición de elegibilidad)*
  - UK entities: participan como beneficiarios, en el momento de firma de GA se cambian/no a associated partners y reciben fondos/no (segun disponibilidad en fondo de garantía UKRI).
- ✓ Las entidades públicas, organismos de investigación o de educación superior deben tener un **Plan de Igualdad de Género** *(condición de elegibilidad)*

Cómo preparar una propuesta

ELABORACIÓN PROPUESTA

Parte A - formularios online. Información general sobre la propuesta, los socios, desglose presupuestario e información sobre aspectos éticos.

Parte B - memoria técnica del proyecto. Se estructura en las secciones de excelencia, impacto e implementación.

- ✓ Se debe incluir un Plan de difusión, comunicación explotación de los resultados *(Condición de admisibilidad).*
- ✓ Se tienen en cuenta los aspectos transversales: ética e integridad, seguridad y protección de datos, inclusividad, perspectiva de género, ciencia abierta, respeto al entorno, etc.
- ✓ Se recomienda incluir un anexo específico para EECC, si aplica (1 anexo/propuesta, tantos EECC como sean necesario!)
- ✓ **Ciencia Abierta** incluida en la parte de excelencia y implementación. Aceso abierto a publicaciones y datos.

PRESENTACIÓN PROPUESTA

- ✓ La propuesta debe ser completa, legible, accesible e imprimible *(Condición de admisibilidad)*.
- ✓ La propuesta no debe exceder los **límites máximos de extensión** (salvo excepciones) *(Condición de admisibilidad):*
  - 1st stage: 10 págs
  - 2nd stage-lump sum: 50 págs. para RIAs e IAs, 33 págs. para CSA
  - single stage: 45 págs. para RIAs e IAs, 30 págs. para CSA
- ✓ La propuesta se debe de presentar antes del fin de plazo *(Condición de admisibilidad)*: 1st stage 19/10/2023, 2nd stage y single stage: 11/04/2024

Cómo preparar una propuesta

EVALUACIÓN PROPUESTA

- ✓ Los criterios de evaluación son: excelencia, impacto, calidad y eficiencia en la implementación.
- ✓ Para optar a conseguir financiación, se deben superar los siguientes **umbrales de puntuación**: como mínimo 4/5 en las secciones de excelencia e impacto, 3/5 en la sección de implementación y una puntuación total mínima de 12/15.
